

1. Educational Website
2. A) Educational Website.

I have an array of knowledge running machinery the past six years and I love it. I would like to share the basics of how to operate excavators and to inspire other to try it out. I take my job for granted but I have had dozens of people come up to me and say, “wow you have an awesome job” and that makes me feel good. I like being responsible for lives and lots of money and the trust I have in myself operating through both my experience and ability to solve problems.
